# CYBERQUERY FOR DISTRIBUTION CSD & SX.e

BUSINESS INTELLIGENCE AND REPORT WRITING WITH CYBERQUERY

CYBERQUERY

Cyberquery® is the fastest and most powerful Reporting and Business Intelligence solution for the Infor CloudSuite ™ Distribution (CSD) and Distribution SX.e® (SX.e) ERP solutions. With Cyberquery, decision-makers can easily access the information they need to lead their distribution organizations with confidence.

Through Cyberquery's browser-based and/or client/server interfaces, all authorized users are empowered to create and distribute the information they need throughout the organization. Within minutes of installing Cyberquery, users will be browsing data, writing reports and unlocking the intelligence hidden in their application(s).

EASE OF USE
Powerful, intuitive graphical user interface, report wizards, and visual editors

PERFORMANCE
Quickly and easily handles complex table joins for fast, real-time reporting

FUNCTIONALITY
Dashboards, ad hoc analysis, analytics, charts, forms, ETL, data-marts, and more

FLEXIBILITY
Scalable to thousands of users, simultaneous access to multiple systems

COST
High value perpetual or monthly subscription license options

CYBERQUERY FOR DISTRIBUTION CSD & SX.e

CYBERQUERY SOLUTION

The success of Cyberquery in the warehouse management system, WMS, arena comes from providing complete and secure reporting solutions that are specifically designed for ease of use and flexible integration. Cyberquery provides a simple yet powerful interface for creating reports. The friendly drag-and-drop report environment features a powerful Report Creation Wizard covering detail reports to complex visualization, with complete on-line help.

Cyberquery combines the power and security of a server-based reporting environment with a comprehensive meta-data layer to provide a highly productive report creation experience as well as high performance reports. With Cyberquery and Cyberscience expert technical staff, users gain genuine insight into their business within hours of installation.

Flexibility,
Reliability,
Usability
